Thalgo MCEUTIC Rénovation Radicale

Resurfacing Acid Peel Facial – The new cosmeceutical skincare treatment by Laboratoire Thalgo (dermatologically certified)...

Featuring innovative patented new ingredients **Néo Skin and Marine Mésolift**, this facial treats all types of skin irregularities such as pigmentation, acne scarring, blemishes and uneven skin tone. An initial detailed consultation determines the grade of skin imperfections and impurities and products to be used. Then, a thorough double cleanse prepares the skin for the professional peel (available in three grades and determined according to skin type/concern). Three acids are incorporated in the peel (Salicylic, Malic and Ascorbic) to regenerate, renew and resurface the skin leaving it looking noticeably clearer. A digitopressure point massage, using **Marine Mésolift** serum, and a skin boosting detoxification massage, using **Pro-Detox** with pure active oxygen, is carried out and is followed by the application of a serum-mask to resurface, exfoliate and smooth the skin. The treatment is completed with an application of a light cream-serum plus an SPF50 cream for a 'new-skin' effect. The resulting complexion is clearer and brighter, with a visible reduction in surface irregularities, tighter pores and a refined skin texture.

Recommended as a course of 4 treatments; (note...sun block SPF 50 **must** be used throughout the course)
